UX Architect with 14+ years experience designing the structural foundations of complex product ecosystems. I specialize in design systems, information architecture, and practical integration of AI into UX workflows; bridging design and engineering to deliver coherent, scalable product experiences. I bring both the hands-on craft and the cross-functional influence to make UX a durable part of how product organizations work.

WORK EXPERIENCE

Senior UX Manager, Arctic Wolf

2021 – Present

Leading UX architecture, design systems, and information architecture across Arctic Wolf's product portfolio. Core focus: building the structural foundations that let product teams move faster without sacrificing consistency or quality.

- Fenrir design system: Grew adoption from ~33% to 95% of product teams, making Fenrir the default foundation for product delivery across the organization. Reduced average feature delivery time by 63–75% (from months to 1–3 weeks). Cut new designer onboarding time by 5 weeks. Over 230,000 component insertions in Figma in the first year.
- Information architecture: Introduced and governed company-wide IA, establishing scalable navigation patterns that support new features, acquisitions, and long-term product integration.
- AI-augmented UX: Led the organization's adoption of AI-assisted design workflows using Claude and Claude Code; applying AI to component discoverability, accessibility, product planning, and engineering usability; among the first UX practitioners at the company to build hands-on, technical AI skills.
- Design system governance: Established contribution models and adoption coaching across global product teams, reducing duplication and improving shared ownership of design patterns.
- Cross-functional leadership: Embedded designers in product streams, partnered with Product and Engineering leadership on long-term planning, and integrated UX into merger and acquisition onboarding strategies.

Product Manager (North America), Flyt (Just Eat Takeaway.com)

2019 – 2021

- Led product management for North America, working directly with restaurants and partners to define requirements and align on business goals.
- Shipped the Connect API, enabling partners to quickly integrate ordering and delivery systems, improving onboarding speed and reducing technical barriers.
- Drove cross-functional collaboration across design, development, and operations, ensuring consistent execution and measurable adoption.

Caryn Humphreys (Farvour)

UX Architect | Design Systems & AI Integration | Building scalable, coherent product experiences

UX & Product Designer, Vehikl

2014 – 2019

- Designed and delivered end-to-end SaaS and enterprise product experiences, improving usability and adoption across diverse client projects.
- Introduced reusable design patterns and early design system practices that increased speed, reduced inconsistencies, and improved collaboration with developers.
- Partnered with cross-functional teams to define product requirements, streamline workflows, and ensure user-centered delivery.
- Published articles and provided thought leadership that strengthened Vehikl’s reputation in the design and tech community.

Earlier Experience | Various Roles

2008 – 2014

Gained early experience in project coordination, client engagement, and design execution, building the foundation for UX leadership and product strategy

SKILLS & EXPERTISE

UX Craft

UX Architecture · Information Architecture · Design Systems · Component Libraries · Design Tokens · Accessibility (WCAG 2.2) · Interaction Design · Rapid Prototyping · Journey Mapping · UX Research Integration

AI & Emerging Practice

AI-Augmented UX · Claude AI · Claude Code · Prompt Engineering

Tools

Figma (Design + Tokens) · Storybook · Jira · Confluence · Miro · LucidSpark · GitHub Workflows · HTML/CSS · React Component

Leadership

Design System Governance · Cross-functional Collaboration · Stakeholder Alignment · Coaching & Mentorship · DesignOps · UX Maturity Initiatives · Design Leadership

EDUCATION & CERTIFICATIONS

Diploma with Distinction, Advertising | Conestoga College

2007–2009

Human-Computer Interaction | Coursera

2014

Mental Health First Aid | IIRSM

2024
